Dear Josh:

I'm intrigued by the notion of a historical analysis of the idea of arms control as defense policy. I really haven't seen one. It could be an interesting theme for a paper I have to give in Eastern Europe next summer on "learning about war avoidance" (not a very felicitous theme for a conference)

Cordially,

A handwritten signature in dark ink, appearing to read "Davis".

Davis B. Bobrow, Director
Professor of Government
and Politics

A small handwritten mark consisting of a short horizontal line with a vertical line extending downwards from its center.
